WORK EXPERIENCE

Freelancer – Konya, Türkiye

Software developer (Node.js)

[21/12/2018 – Current]

- Over the past eight years, I have specialized in **Node.js** to develop efficient, scalable, and real-world applications with over 100 projects. My projects span **automation, data scraping, API integration, social media tools, and custom backend solutions**.
- Utilizing frameworks and libraries such as **Puppeteer** and **Express**, I build **robust systems** that **automate workflows, extract valuable data, and deliver seamless user experiences**.
- I continuously stay updated with the latest Node.js ecosystem developments to ensure high performance and maintainability in all my applications.

Freelancer – Konya, Türkiye

Software developer (PHP)

[21/12/2018 – Current]

- With extensive experience delivering over **25 websites** and **software solutions**,
- I specialize in **PHP** development for **dashboards, e-commerce platforms, specialized business tools, and niche websites**.
- My work includes building **secure user authentication systems**, interactive **business sites**, and customized platforms such as **Bitcoin-related websites**.
- Utilizing PHP alongside **MySQL, HTML/CSS, and JavaScript**, I create robust, **user-friendly applications** tailored to client needs.

 **Freelancer** – Konya, Türkiye

Software developer (Javascript)

[21/12/2018 – Current]

- My **JavaScript** expertise includes developing **browser extensions, interactive web tools, and game systems** aimed at enhancing user engagement and delivering tailored functionality.
- I have built **Chrome extensions** for practical utilities, web applications like **digital business card creators**, and HTML5-based games front-end coding such as roulette and blackjack.
- Leveraging core **JavaScript, HTML, and CSS** technologies,
- I focus on creating **seamless and interactive user experiences**.
